

FAMILY LAW

With a combined over 150 years of experience in all facets of Washington divorce and family restructuring, we are here to help you choose the best path forward. Whether you want to proceed with traditional divorce litigation, mediation, or collaborative divorce, we have many years of success representing clients through legal separations, committed intimate relationships, child custody, child support and parenting plans, as well as prenuptial and postnuptial agreements.

Recognizing that disputes about child custody are one of the most delicate and emotional aspects of the separation process, we approach each case with individualized attention and care, in an effort to minimize the impact of parenting issues on our clients' children.

Working as a team, our goal is to guide you and your family to find the best way forward. When you need to get a divorce in Washington, we'll plan a strategy that starts by consulting with you about the following issues and how they may apply to your circumstances.

DIVORCE

We are respected for our experience and success representing clients in divorce, legal separations, committed intimate relationships, child custody, child support and parenting plans, as well as prenuptial and postnuptial agreements. Recognizing that disputes about child custody are one of the most delicate and emotional aspects of the separation process, we approach each case with individualized attention and care, in an effort to minimize the impact of parenting issues on our clients' children.
